

PABLO ARRAZOLA

Colombia, 1991

Pablo Arrázola's work explores the poetic possibilities of drawing, using hyperrealistic depictions of children within the expansive white space of paper. Over time, his art has become increasingly experimental, with paper itself becoming a sculptural, abstract element. Through cuts, folds, and textures, Arrázola evokes childhood as a state of innocence and freedom, inviting viewers to contemplate the passage of life and the unanswered questions that arise from it. His works are a metaphor for human experience, filled with empathy, nostalgia, and open-ended possibilities.

La obra de Pablo Arrázola explora las posibilidades poéticas del dibujo, utilizando representaciones hiperrealistas de niños en el inmenso espacio blanco del papel. Con el tiempo, su arte se ha vuelto más experimental, convirtiendo el papel en un elemento escultórico y abstracto. A través de cortes, dobleces y texturas, Arrázola evoca la infancia como un estado de inocencia y libertad, invitando al espectador a contemplar el paso de la vida y las preguntas sin respuesta que surgen. Sus obras son una metáfora de la experiencia humana, llena de empatía, nostalgia y posibilidades abiertas.
